WILD TURKEY BOLD NEW PACKAGING ARRIVES IN THE UK

The striking new packaging for the premium range of Wild Turkey® bourbon and rye whiskeys is hitting the shelves of back bars and off licenses this week. While making no changes to the award-winning liquid, Wild Turkey has designed new packaging for its family of products that better reflects the core values of the historic brand. A detailed new turkey illustration, found on every expression and most prominently displayed on Wild Turkey 101, depicts a spirited bird that is authentic, proud, and bold – characteristics that have always defined the conviction at the heart of the Wild Turkey brand.

“The bold and characterful liquid of Wild Turkey now has a fantastic new label to match. The new labels all featuring a proud and prominent turkey icon, will ensure the bottle stands out in much the same way the whiskey has for decades. There has been an explosion of interest in bourbon and rye whiskies amongst UK bartenders and consumers, and the new pack will help ensure Wild Turkey remains at the forefront of this in the coming years.” Said Nick Williamson, Campari UK Marketing Director.

The change of packaging comes on the heels of recent positive attention for the Wild Turkey brand stemming from critical and commercial success of its super premium limited time offerings, including Master’s Keep®, and is the latest example of Campari UK’s efforts to further popularise the iconic brand throughout the UK. To date, the company has invested more than \$100 million to thoroughly modernise and expand the Wild Turkey distillery experience, including the construction of a new visitor center and packaging facility.

The new look for the entire range of bourbon and rye whiskies also reflects Eddie Russell’s promotion to Master Distiller, last year. The packaging now makes it clear to consumers that Wild Turkey Kentucky Straight Bourbon (formerly known as Wild Turkey 81) is Eddie’s creation, while his father and living legend Jimmy Russell is the creator of Wild Turkey 101. Eddie’s signature is front and center on Wild Turkey Kentucky Straight Bourbon, while Jimmy’s is prominently placed on Wild Turkey 101.

Wild Turkey’s Master Distiller Eddie Russell noted, “We wanted the new packaging to capture the hard work, craftsmanship, and heart that goes into making Wild Turkey. My father and I have been making whiskey the same way for over 60 years. From hand selecting the grain, to bottling the liquid, and everything in between, we make sure our product is made the right way – the traditional way – at every single stage. We’re proud of our whiskey, and we’re glad to have packaging that embodies that.”

In addition to its range of bourbon products, packaging for Wild Turkey’s rye expressions have also been updated. Wild Turkey, as a way of celebrating America’s first spirit, is one of the few distilleries that has always produced rye whiskies, long before the rye boom the industry is experiencing today. The new look features rich green colors and a premium split label design - a nod to the superior quality and

character of the whiskey.

Although labels for each expression of Wild Turkey differ, they do share some common aspects that create uniformity across the range:

- **Strip Stamp:** Comprised of deep, rich colors and accented with gold foiled writing, the strip stamps at the neck of the bottle now denote what type of whiskey is inside each bottle, and most contain the phrase “Crafted with Conviction.”
- **Glass:** Below the strip stamp on every bottle, a circular Wild Turkey marking is embossed in the glass. Near the bottom of every bottle, also embossed in the glass, are the words “BOLD. GENUINE. TRUE.”
- **Label:** The most striking feature of the new packaging is the true-to-life illustration of the turkey found on every bottle in the range. Professional wildlife artist Julie Rhodes was commissioned to draw the icon. Working closely with the US’s National Wild Turkey Federation, Julie took great care to make her work as realistic as possible, painstakingly finishing a small section at a time before moving on to the next. What resulted is an incredibly realistic depiction of a spirited bird (the original national symbol recommended by Benjamin Franklin) that is regal, bold and proud – a perfect icon for an exceptional bourbon.

New packaging for the following expressions is now working its way through the supply chain:

- Wild Turkey Kentucky Straight Bourbon (formerly known as Wild Turkey 81) is now available
- Wild Turkey 101 is due in trade in September
- Wild Turkey Rye is due in trade in Q1 2017
- In September, Wild Turkey will release the limited edition barrel proof Rare Breed®

ABOUT WILD TURKEY

The Distillery for Wild Turkey Bourbon is located in Kentucky, situated on a deep limestone shelf on the Kentucky River. The shelf acts as a natural filter and provides the distillery with crystal clear water, vital to making such a high quality product. The whiskey is fermented for 72 hours. Wild Turkey features the legendary father and son Master Distilling team of Jimmy and Eddie Russell, who have 90 years of combined experience making bourbon.

The famous Wild Turkey brand name first came about back in 1940 when distillery executive Thomas McCarthey took a few warehouse samples on a Wild Turkey hunting trip with a group of friends. The following year, his friends asked him for "some of that Wild Turkey whiskey" and the brand was born.

Wild Turkey is distilled and put into new oak barrels at a much lower ABV than most bourbon. This results in a much richer flavor, as less is cooked out during the production process. Ageing in the highest quality new American oak barrels with the heaviest char available (the Number 4 "alligator" char), imparts a smooth flavor and deep amber color to the whiskey. Wild Turkey is one of only a few bourbons to use this expensive, deep char.

The barrels are filled at the distillery in Lawrenceburg, Kentucky. www.wildturkey.com
